

BORNIT® - Bitumen Roofing Materials

Roof restoration

BORNIT®-Bitugrund

BORNIT®-Primer

... is a solvent-based bituminous primer which can be brushed or sprayed on, tested by MPA Sachsen in compliance with DIN 18195/2 and AIB. It is essential for priming surfaces before applying hot coats of bitumen, or before laying roofing felt or weldable bitumen sheeting. BORNIT®-Bitugrund sticks to concrete, masonry, plaster and nearly all other surfaces, including metal, commonly found in construction.

Drum: 1 liter / 5 liter / 10 liter / 25 liter

NEW: 600 ml Spray

BORNIT®-Dachlack

BORNIT®-Roofing Paint

... is a bitumen-based paint which can be brushed or sprayed on. A bitumen roof paint for first coats as well as for the maintenance and repair of roofing felt, weldable bitumen sheeting (excluding polymer bitumen sheeting) and other bituminous coverings. Tested in compliance with AIB. Test Certificate issued by MPA Dresden is available.

Drum: 1 liter / 5 liter / 10 liter / 25 liter

NEW: 600 ml Spray

BORNIT®-Flüssighaut

BORNIT®-Elastic Sealant

... is a highly flexible, latex-modified bitumen emulsion for making durably stretchable and elastic seals on roofs and other building components, both indoors and outdoors. This high-quality roof coating is UV-resistant and is suitable for restoring flat roofs.

Drum: 12 liter / 25 liter

BORNIT®- Bitumen Roofing Materials

BORNIT®-Kaltkleber

BORNIT®-Cold-Adhesive

... is a brush-on, medium viscosity adhesive based on bitumen solvent, without fillers. BORNIT® Cold Adhesive is suitable for gluing sheet-type roof coverings, mineral insulation materials and other roof covering materials at roof inclinations of up to 12.5%. BORNIT® Cold Adhesive adheres to concrete, masonry, plaster, bituminous felt and other common roof coverings.

Drum: 1 liter / 5 liter / 10 liter / 25 liter

BORNIT®-Bitumen-Dachkleber

BORNIT®-Bitumen Roof Adhesive

... is a bitumen-based adhesive of medium viscosity; strips of adhesive can easily be applied from the cartridge.

Cartridge: 320 ml

BORNIT®-Kaltspachtel

BORNIT®-Cold Roofing Compound

... is a highly elastic, fiber-reinforced bituminous roofing compound; good adhesiveness on plaster, concrete, masonry, metal and bituminous surfaces, to seal any joints on and around the roof.

Drum: 1 kg / 2.5 kg / 6 kg / 12 kg / 26 kg

BORNIT®-Bitumen-Dachspachtel

BORNIT®-Bitumen Roofing Compound

... is a highly elastic bituminous roofing compound; fiber-reinforced and easy to use from the cartridge.

Cartridge: 320 ml
